

MATERIAL OPTIONS

103S LAUREL SIDE TABLE

Laurel side table is composed of two pure geometric shapes, cone and cylinder, intersecting to create two wide and functional surfaces, distributed at different levels. In keeping with the other elements of the collection, the ratio of the materials used is 50/50, in this case painted hdf for the cone, that appears to balance weightlessly upon the cylindrical base, built with generous planks of timber sandwiched with alternating grain direction.

SIZE

W32 x D30 x H40 cm
W12 1/2 x D11 4/5 x H15 3/4 "
